

AM Cables Essential Line

Optical audio cable (Toslink)

The ultimate solution for high quality Home Cinema sound

A high quality fibre optical cable for transferring digital audio signals. Stereo connects your DVD player, CD player, DAT recorders and video game consoles to your A/V receiver, Hi-Fi system or surround sound amplifier. Extremely flexible.

As an extra benefit it simplifies cabling!
One cable does it.

Specifications:

- Strong spun PET mesh cover
- Flexible PMMA core
- Tight fit plugs
- Two-colour headshell
- Polished oval light conductor end point
- Available in 1.5 and 3m

Toslink to toslink (IEAJ optical). Toslink connectors are engineered to optimize signal transmission at the transition point.
